Complete Career Interest Profiler, get a Holland Code, explore careers that match your code.

The **Career Interest Profiler** captures your interests to help identify your personality traits and suggests careers based on the U.S. Department of Labor's data.

How it Works

Plan to spend at least 15 minutes on this assessment.

You'll answer 60 questions about your interests.

The **Career Interest Profiler** then maps your results to Holland's 6 personality traits.

Naviance then shows you careers that map to your traits and educational aspirations.

What's in it for you

You'll learn your personality traits according to the Holland Code and how those help with career exploration and planning.

You'll inform your career planning process with career recommendations based on your personality.

What's Next

Take a look at the traits where you received your **highest scores** and then view the related careers for those types.

Consider your education and training aspirations. You have to level up your skills to break into any occupation. Different careers require different certification, licenses, and degrees. These can take anywhere from a few months to over 5 years. Filter related careers by education to find careers that match your needs.

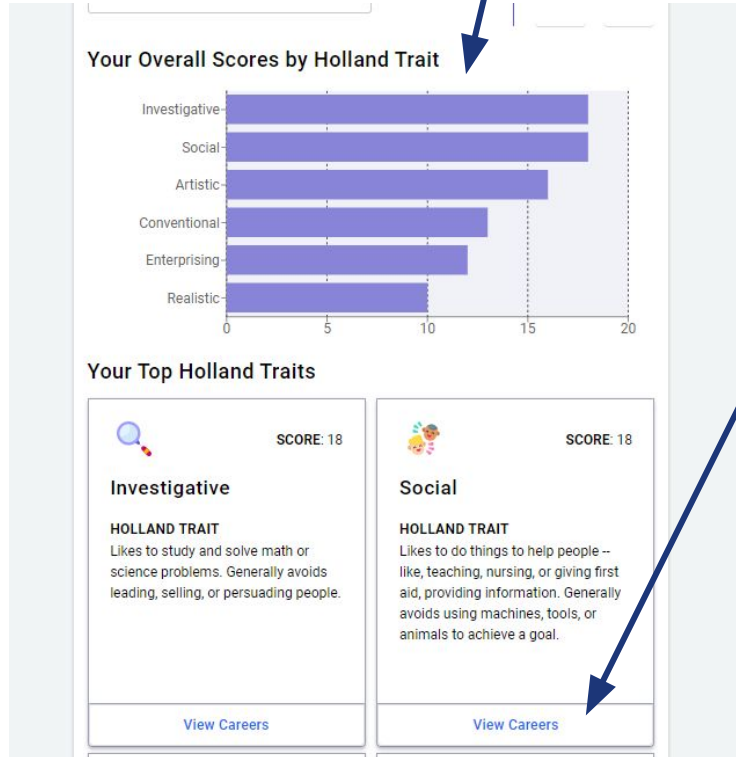

You are unique. Not every career that matches a personality type will be a match to your interests, skills, aspirations, or desired lifestyle. The trick is to discover the ones that do.

Be sure to **favorite careers** that interest you to save them for later.

Scroll down to see your top Holland Traits. Click on View Careers.

To receive information about upcoming career events, favorite any careers of interest.
